

The secret to our concept (business model) is that we provide the "push" for e-commerce (what drives them to the site initially) with our unique "referral marketing concept" that pays "Rewards" to those who refer others, and we provide the "pull" for e-commerce as well (what pulls them back over and over again) through our co-op structure that pays Rebates to all shoppers, even our FREE members, and offers a host of benefits through our unique one-door shopping portal...again, for FREE!

### **We are here to support you.**

There is no software like our Referral Calculations & Administration (RCA) System software period! That is why we had to develop it from scratch. It does real-time placement, real-time calculations, real-time reporting, real-time administration...and tracks online purchases seamlessly across a platform of thousands of sites, vendors, merchants and affiliates...and in conjunction with our proprietary electronic BCWallet it offers advanced security, dependable reporting and personalized service.

We are in a "league of our own"... we couldn't "buy" a solution to referral-based e-commerce, so we "created" our own proprietary software solution that is server-based on our end and accessed only by our BigCo-op Licensed E-Com Operators.

## **Get Started TODAY!**

- As an Application Service Provider (ASP) BigCo-op provides its Licensed E-Com Operators access to its own proprietary software, the world's most advanced e-referral marketing solutions.
- The BigCo-op concept is built on the belief that FREE memberships and FREE benefits attract the masses, while cost-based memberships and distributorships limit a company's potential dramatically.
- As virtual "e-market brokers" BigCo-op Licensed ECOs have access to a host of online marketing opportunities, all backed by the world's first global commerce cooperative.
- No territorial boundaries... the BigCo-op opportunity is global!
- The BigCo-op will finance a large portion of your ECO License costs, and won't even ask for a credit report or personal guarantee...that's how certain we are of your success.
- Co-op Shopping Rebates & Rewards are made possible by our proprietary RCA System that tracks purchases seamlessly across a platform of thousands of online shopping sites.

***Congratulations...  
You are in the right  
place at the right time.***

Everyone else out there in online networking are just copy cats...me too's...

There is no logic behind their business model, just marketing hype. "Get in on the ground floor of the Internet" is all they have to sell. Being on the ground floor however, does little good unless the deal not only gets off the ground but stays in business for years and decades to come. That only happens with a business built on something other than hype and promises.

The Internet is far from mature. The companies and individuals who will eventually make a fortune with the Internet are the ones who are still standing when the Internet matures...when it's second nature for people to shop online. Once again, it takes more than hype and promises to keep the doors open that long!

We are a co-op and as such everyone shares in the transaction of cooperative commerce – e-market brokerage in other words. That means that whether a BigCo-op Merchant or Vendor (Value Suite owner or Virtual Vendor) or Affiliated Merchant (Wal-Mart, JC Penny, etc.) they all give back a share to the co-op and we share that with the members as Rebates on their personal purchases and Cash Rewards on the purchases of those they refer.

# **BigCo-op Products & Services.**

## **Value Suite**

As the ultimate e-market broker the BigCo-op puts buyers together with sellers the world over. The first option for its vendors (sellers), that of a Value Suite, is for any small to medium size business that wants to not only showcase its products and/or services in the BigCo-op, but also needs or wants the added advantage of a stand-alone web site. This template-driven concept is professionally designed, high-tech, completely e-commerce enabled and very affordably priced at only \$199.00 US.

## **Virtual Vendor.**

The second option is for any small to medium size business that wants to simply showcase its products and/or services inside the BigCoop.com commerce portal site, and does not need a stand-alone website. The Virtual Vendor is able to "stock the shelves of the BigCo-op" anytime, day or night, displaying products before a world of buyers - from Albuquerque to Zanzibar - their virtual store has no limits! It's priced at only \$99.00 US.

## **MCI Long Distance.**

**Save up to 50% or more on every long distance call! 24 hours-a-day, 7 days-a-week.** Stop paying for time you don't use. 6-second Billing! All Day, Every Day! **No term commitment! No enrollment fee! No minimum usage! World Wide travel card! Special international rates! Residential or Commercial! 5.9¢ Toll-Free Numbers Available.**

## **BigCoop.net Internet Access**

BigCoop.net Internet access gives you quick, easy and affordable access to the web, utilizing WorldCom's UUNET Internet backbone. UUNET is the largest, fastest and most reliable Internet network in the world. Powerful, priced below the market and carrying a rebate to the user and a commission to the seller!

## **BigCo-op Travel**

Travel is the fastest growing segment of online commerce and already the largest industry in the world. It only made sense for the BigCo-op to offer the opportunity for its Licensed ECOs to become BigCo-op Independent Travel Agents. You save big on your own travel needs, earn commissions on others and enjoy incredible benefits as a recognized ITA (Independent Travel Agent). You even have the option of your own personalized travel site with full tracking of commissions.

## **BigCo-op Shopping.**

Access to thousands of online stores and millions of products, that's what every BigCo-op member enjoys. As a Licensed ECO however, your rewards can grow in proportion to the growth and maturity of the Internet itself and you can build for you and your family a lifetime of residual income...income that comes from the purchase of everyday products like food, clothes, electronics...just about anything...and all at value-based prices!
