5 Ways to Earn!

This is a simple business, if you use and like the products and enjoy the business opportunity then all you have to do is share the products and the opportunity. So since this is such a simple business then the compensation plan should be simple as well, and it is. Let me ask you, when you visit your neighborhood superstore to take advantage of their hottest deal, how much does the superstore send you in the form of a check each month for your purchases? Another question, if after you have taken advantage of this hot deal and then send a few of your friends over and they each buy, how much does the superstore send you each month in the form of a check for their purchases? Of course we all know the answer is nothing, nada, zip. Well this is the brilliance of how you get compensated for your VitaStar International business. You buy and use product and then you help others do the same and then VitaStar International sends you a check proportionate to how much is bought and used within your organization. So let's review the 5 ways to earn through the VitaStar International compensation plan:

1. Retail Profits

VitaStar International has provided an opportunity for its distributors to resell a product line of the highest quality, high demand product at prices that are of great value to their customers. This is a great way to earn immediate income through retailing product.

2. Quick Start Bonus

You receive a \$125 Quick Start Bonus each time you sponsor a new VitaStar Distributor who purchases the VitaStar Business System.

3. Leader Builder Bonus

Leader Builder Bonus - A one time 5% bonus will be paid to any Bronze Rep that advances a Silver Rep and then a one time 10% bonus will be paid to any Silver Rep that advances to a Gold Rep. Bonus paid on total volume from all levels. This bonus will pay down through all levels except and until another Leader Builder bonus is being paid.

4. Group Bonuses

VitaStar International will reward you generously for growing a productive organization. You can earn up to an additional 51% on 5 levels or generations of distributors in your group. This allows you to build and train a group of business partners who in turn build and train their group and so on. As this happens the power of residual income can be yours. Residual income is the true brilliance of network marketing, allowing you to earn income for your efforts from months and months ago.
